WHO PROVIDES SERVICES?

Tribal Housing
Leadership & PRC
Human/Social Services
Elder Services
Health Center/Clinic
Transportation
Community Health & CHRs
DETERMINE THE COST OF YOUR SERVICES
WHAT YOU WILL NEED TO CREATE A BUDGET:

- List of billable services
- Number of Elders being served (in each category) & How often (daily, weekly, monthly)
- Number of staff to perform service & their cost (salary, benefits, etc…)
- Additional costs (office space, utilities, transportation costs)
EXAMPLE: HOME DELIVERED MEALS

Tribe X serves 35 Elders home delivered meals. They have one driver and one cook. The cook does all of the meal prep. Both of these positions are part time at 25 hours a week. They deliver lunch meals Monday through Friday.

Total People = 35
Total Meals Per Week = 175

The cook and driver both make $7.50 and hour = $375/week
Driver uses a full tank of gas each day at $40 = $200/week
Weekly food budget = $500
EXAMPLE:
HOME DELIVERED MEALS

Total Cost of Labor + Food + Gas = **Base Cost Weekly**
Base Cost ÷ Total Meals Per Week = **Cost Per Meal**

Tribe X Meal Calculation:
$375 (Labor) + $200 (Gas) + $500 (Food) = **$1075 weekly cost**
$1075 (Base) ÷ 175 (Lunches Per Week) = **$6.14 per meal**
ELDER ENROLLMENT IN MEDICAID

- Tribes need to aid Elders in Medicaid (and Medicare!) enrollment
- Enrollment will benefit other Tribal areas
- Saves Purchased and Referred Care
