Apryl Davenport serves the northwest part of the state, Regions I-II. She is based out of Minot.

Lou Wagner serves the northeast part of the state, Regions III-IV. She is based out of Grand Forks.

Eunice Meldinger serves the southeast part of the state, Regions V-VI. She is based out of Bismarck.

Here are several ways to protect yourself from a fraudulent health screening:

- Never give your Medicare, Social Security number or banking information to strangers.
- Don’t trade personal information for “free” medical tests.
- Decline any offers of lab testing without a direct order from one of your doctors.
- If you do give personal information, keep watch on correspondence from your health insurance provider for any unauthorized charges.

**MEDICATION CHECKLIST**

An up-to-date medication list is an important tool for the family caregiver and your care recipient’s doctor(s).

1. **MAINTAIN AN UP-TO-DATE MEDICATION LIST**
   - Be sure to list the name, dosage, and frequency of the medication, the reason for taking it, any dosing directions, the start date, and when appropriate, the end date.

2. **TRANSLATE HAND-WRITTEN PRESCRIPTIONS**
   - Don’t be shy about asking all doctors to "translate" their handwriting, so you can have a record of what they prescribed and why.

3. **WRITE THE CONDITION TREATED ON EACH MEDICINE BOTTLE**
   - You might find that your care recipient is taking three different pills for the same condition, each prescribed by a different physician. That may be exactly what is needed, but it is definitely a red flag to alert you to ask questions.

4. **USE THE SAME PHARMACY WHEN POSSIBLE**
   - Develop a strong rapport with your pharmacist and let.

**The Volunteers of SMP**

**Tony Wanner** is the president of the Golden Valley Senior organization in Beach – and our featured volunteer for SMP this month. Tony has been a member of the group since 2009 and president for 4 years. At one time the senior center participation was dwindling. Tony helped to revive interest and now daily noon meals are provided by Elder Care at Buzzy’s Café. About 40 neighbors (everyone is a neighbor in a small town!) congregate at Buzzy’s Café for daily visits and monthly meetings, which always include a discussion on scams led by Tony. The Golden Valley Seniors are now the largest group in southwestern ND.

Tony says the group is strong because “everyone bonds as good friends. Ninety percent of the members are single and the greatest advantage is to have someone to eat and socialize with – and a plus is having someone else doing the cooking! Keeping involved is very good for everyone.”

Tony retired from the weigh station for the Highway Patrol in 2002. He prepares taxes each year and now works part time for the City of Beach. He credits Beginning Experience for the confidence to lead the group and other aspects in life. He enjoys camping and fishing with his wife and 14 grandchildren.

**Nancy Tolf** with SMP thanks Tony for his dedication to keeping his community active, sharing information with his group and especially his friendly nature.

We have such great volunteers and we need more! Here are a couple of volunteer testimonies as to why they volunteer. Will you be our next volunteer? #volunteer #smp #ndsmp

---

**Why I Volunteer...**

I became a volunteer in 2014 after hearing Regional Volunteer Coordinator Lou present at the Greater Grand Forks Retired Teachers’ Association meeting. “We all need to know current scams. Everyone is vulnerable, especially senior citizens. It’s always a good feeling to prevent.”

- Gay S. (ND SMP Volunteer)

---

**Why I Volunteer...**

“My main reason for volunteering with SMP is because a very kind woman helped my parents with their questions and problems with Medicare. I just want to pay it forward. It has been a very good experience for me. I have been volunteering for five years.”

- Vicki R. (ND SMP Volunteer)

Medicare’s Open Enrollment Period (#OEP) is one month away. Now is the time to schedule an appointment with your local State Health Insurance Assistance Program (#SHIP) to review your choices and explore other possible options for health and drug plans.

About the SHIP TA Center

SHIP TA Page objective

To produce shareable content, directed at members of the general public, for 54 SHIP programs. Content includes SHIP promotion, general Medicare information, and national events.
Know your audience

It’s easy to create a post that YOU will like, but more important to create a post that your audience will like and benefit from.

TIP: create an “avatar” or a profile of your target audience and pin the list or image by your computer as a good reminder while you’re building posts.
Pair down complicated Medicare information or provide a link with expanded details.

Make sure your font is easy to read in a large type size and accompanied by a strong image.

Make your post short and sweet. Sprinkle additional facts within accompanying text or include a link for more information.
Keep it simple

If a post requires text or multiple steps, consider reformatting your information into an infographic image or a short instructional video.
Mix it up & have fun!

Don’t be afraid to try a new style – then step back and see how people respond.

Add some variety to your page by posting more than just images and text. Try videos, quotes, infographics, and gifs.

One of my more creative ideas (which came to me right before falling asleep!) generated a post that has gotten the most views to date!
Measure your results

See how your posts fared by reviewing shares, likes, and impressions (in the insights tab) based on:

- content
- post type
- the time of day or day of the week you posted

Then, adjust your strategy accordingly.
“Ask and ye shall receive”

- Do you have a partnering agency with a much bigger Facebook fan following? Ask them to share a post of yours.

- Engage your audience by asking questions or adding a call to action on your post.

- Invite people to like your page.

- Don’t forget to list your page on your agency webpage and add a link like your Facebook page in your email signature.
